Forecast for Thursday 03 Jun 2021

Weather: Widespread low cloud and fog at first, with the cloud perhaps thick enough to produce some light drizzle in places. After dawn the cloud will gradually lift and break, with sunny spells developing from mid-morning. After midday sunshine should become more widespread, leading to a warm and sunny afternoon. The clear and dry conditions then continuing into the evening.

Chance of cloud free mountain/hill tops above 600m: 10% at first, gradually rising during the morning to become 100% during the afternoon.

Visibility: Generally poor or very poor visibility at first with cloud bases around 300 to 400m, with nearby hills often difficult to make out and nearby landmarks sometimes obscured. Cloud bases are expected to lift slowly after dawn allowing visibilities to steadily improve and becoming good or very good during the afternoon with clear views of distant hills.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Although it will be a cloudy and foggy start to the day, skies gradually clear, allowing the strong June sunshine to develop widely across the park for the afternoon. UV levels will be high or very high at times, leading to the risk of sunburn and dehydration.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Thu 03 Jun 2021	2.2mm	2.2mm	2.2mm

Forecast for Friday 04 Jun 2021

Weather: Dry and clear during the early hours, leading to a chilly start with some patchy fog in the valleys soon clearing. It will then be a sunny and pleasant morning, with just a little fair weather cloud bubbling up at times. The afternoon will be warm, dry and sunny, with UV levels high or very high across the park.

Maximum wind: Southwesterly 10-15mph, with gusts reaching 20mph at times across the summits

Chance of cloud free mountain/hill tops above 600m: 80% during the morning, rising to 100% during the afternoon

Visibility: Generally good or very good visibilities throughout the day, with great views of distant hills. Cloud bases generally above the summits, but some fair weather cloud may briefly develop during the morning with cloud bases around 600m before lifting back above the summits by lunchtime.

Temperature: **Valleys:** Plus 03C rising to Plus 18C during the afternoon
At 600m: Plus 06C rising to Plus 11C during the afternoon
Freezing level: Well above the summits
